PROFILE

Fresh graduate of Informatics Engineering from Gunadarma University with strong skills in web development and database system management. Experienced in building and maintaining modern web applications using technologies such as PHP (Laravel, CodeIgniter), ReactJS, Next.js, and various database systems (MySQL, PostgreSQL, Supabase). Highly motivated to contribute to impactful projects while continuously developing technical expertise and professional skills. Strong analytical and problem-solving abilities, with proven capability to work independently as well as collaboratively in a team.

EDUCATION

Gunadarma University   2021 – Agustus 2025
Bachelor of Informatics Engineering
- IPK: 3,82/4.00

SMA PGRI 1 BEKASI   2018 - 2021
- Major: Science

EXPERIENCE

BPBD Cianjur x UG Techno Park   October 2024 – December 2024
Web Developer (Internship) | Program Kompetisi Kampus Merdeka (PKKM)
- Conducted analysis of the manual logistics and aid management system at BPBD Cianjur, identifying inefficiencies and transparency issues.
- Designed and developed a web-based information system called "SiKembar" (Sistem Keluar Masuk Barang) using PHP (CodeIgniter), MySQL, AJAX, and GitHub.
- Contributed to both front-end and back-end development of core modules, including system and database integration using MySQL.
- Performed system testing and deployed the application to the server for direct use by BPBD.

Bisnis Indonesia Group – Central Jakarta   February 2024 – June 2024
IT Programmer | Program Magang Kampus Merdeka – MSIB Batch 6
- Implemented mock-up designs and managed interactions between the company's website and Oracle Database using Laravel to enhance user experience, significantly reducing page load times.
- Maintained and updated the company's internal information system for goods receipt and release processes, adding over 10 new features and fixing more than 20 bugs, which improved system performance and usability.
- Built and managed a web-based ERP system using Laravel as the backend framework and Oracle Database as the primary data storage, increasing the efficiency of logistics and management data processing.
- Performed database administration operations, including creating databases, tables, columns, and other components, enabling more structured and systematic data management.
- Managed code repository administration on the GitLab platform, ensuring clean version control and reducing integration errors among the development team.
- Actively contributed to the internal BigForum Revamp project, focusing on modernizing the company's digital platform using Next.js and TailwindCSS.

PROJECTS [Link]

Wild Oasis [Link]
- A booking platform that allows users to easily and securely reserve cabins. Built using ReactJS with React Query for state management and Supabase as the backend database. Features an admin dashboard to manage bookings, view sales analytics, monitor occupancy rates, and summarize stay durations—all presented in a modern, responsive UI.

The Wild Oasis Next [Link]
- A modern hotel booking web application built with Next.js and Supabase. It features secure authentication with NextAuth, server-side data handling, and a responsive UI with Tailwind CSS. Users can explore cabins, check availability, and make bookings with ease.

BigForum Revamp [Link]
- BigForum Revamp is a redesign project of the legacy BigForum website, aimed at updating its design and functionality. The site was built using NextJS and TailwindCSS to ensure a modern, fast, and responsive user interface. This internal platform for an Indonesian business group includes content such as company profiles, financial management, and more, with a cleaner and more user-friendly structure.

CERTIFICATES & TRAINING

- **The Ultimate React Course 2025: React, Next.js, Redux & More –** Udemy (2025)
- **Internship Program Certificate –** Kampus Merdeka Batch 6, Ministry of Education, Culture, Research, and Technology (2024)
- **Software Engineering Fundamental Course** – RevoU (2023)

SKILLS

Languages & Frameworks: HTML5, CSS, JavaScript, PHP, Laravel, CodeIgniter, React.js, Next.js, Vue.js, Nuxt.js, Node.js, Express.js, Hapi, AJAX, JQuery, Bootstrap, TailwindCSS.

Tools: Git, GitLab, GitHub, DBeaver, Postman, Microsoft Office.

Databases: MySQL, PostgreSQL, Supabase.

Soft Skills: Problem Solving, Teamwork, Time Management, Public Speaking.

Language: Fluent Bahasa Indonesia and Conversational English.
